Programmable Timer

The Hotwire 24 hour timer is a great addition to your Low Voltage Rails. It saves energy and cuts down on your power bill, as the rail only heats up when you need it. This also means your towels are warm right when you want them, adding a touch of comfort to your daily routine.

Slimline elegance Low-voltage efficiency

Discover the perfect blend of sleek design and energy efficiency with our Slimline Vertical Rails. Engineered for low voltage use, it offers an eco-friendly, cost-effective solution to warm your towels. Its slender profile not only saves space but also adds a touch of modern sophistication to your bathroom.
