Nothing left to do but simply relax

Touch Screen Thermostat

Every Hotwire Heating System comes with a fully programmable touch screen thermostat. Simply program it around your lifestyle for luxurious heating whenever you require it.

Fully programmable

Floor or air sensing

Multiple daily functions

Touch Screen

So easy to set

Control your settings with the Hotwire mobile app

We also offer a WiFi thermostat. You can control all the settings on your Hotwire system with the convenience of a mobile app.

Programmable Timer for Heated Towel Rails

The Hotwire Programmable Timer allows you to turn your towel rail On and Off and also select 2 or 4 hours of operation. Simply turn it on when you get up in the morning and your towel will be lovely and warm when you need it. Return your towel to the rail and it will be dry before you know it.

*For ladder rails only .

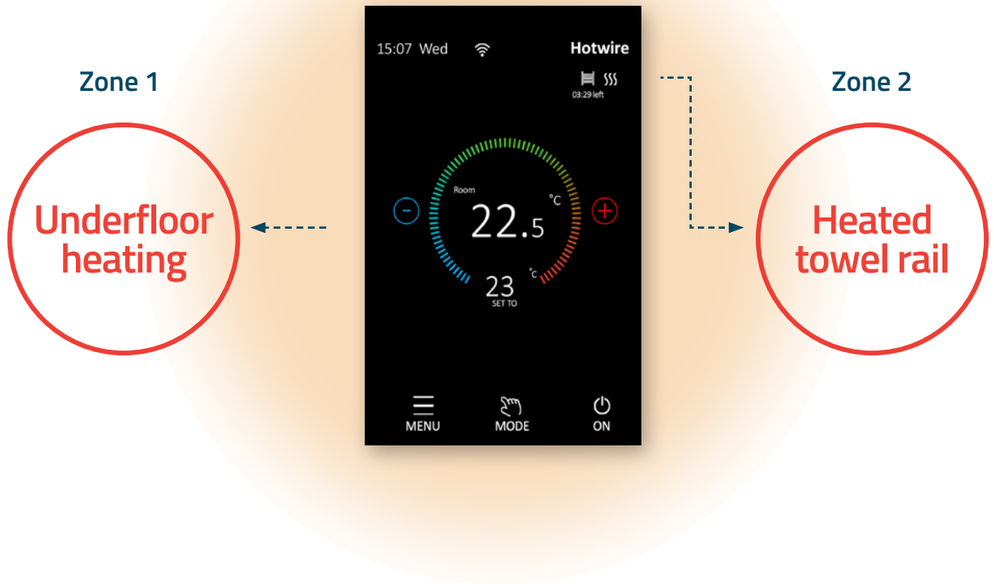

Built-In to towel rail

Co-ordinating colours

Manage two heating zones from one smart controller

Dual-zone comfort without the complexity.

Dual-Zone Control

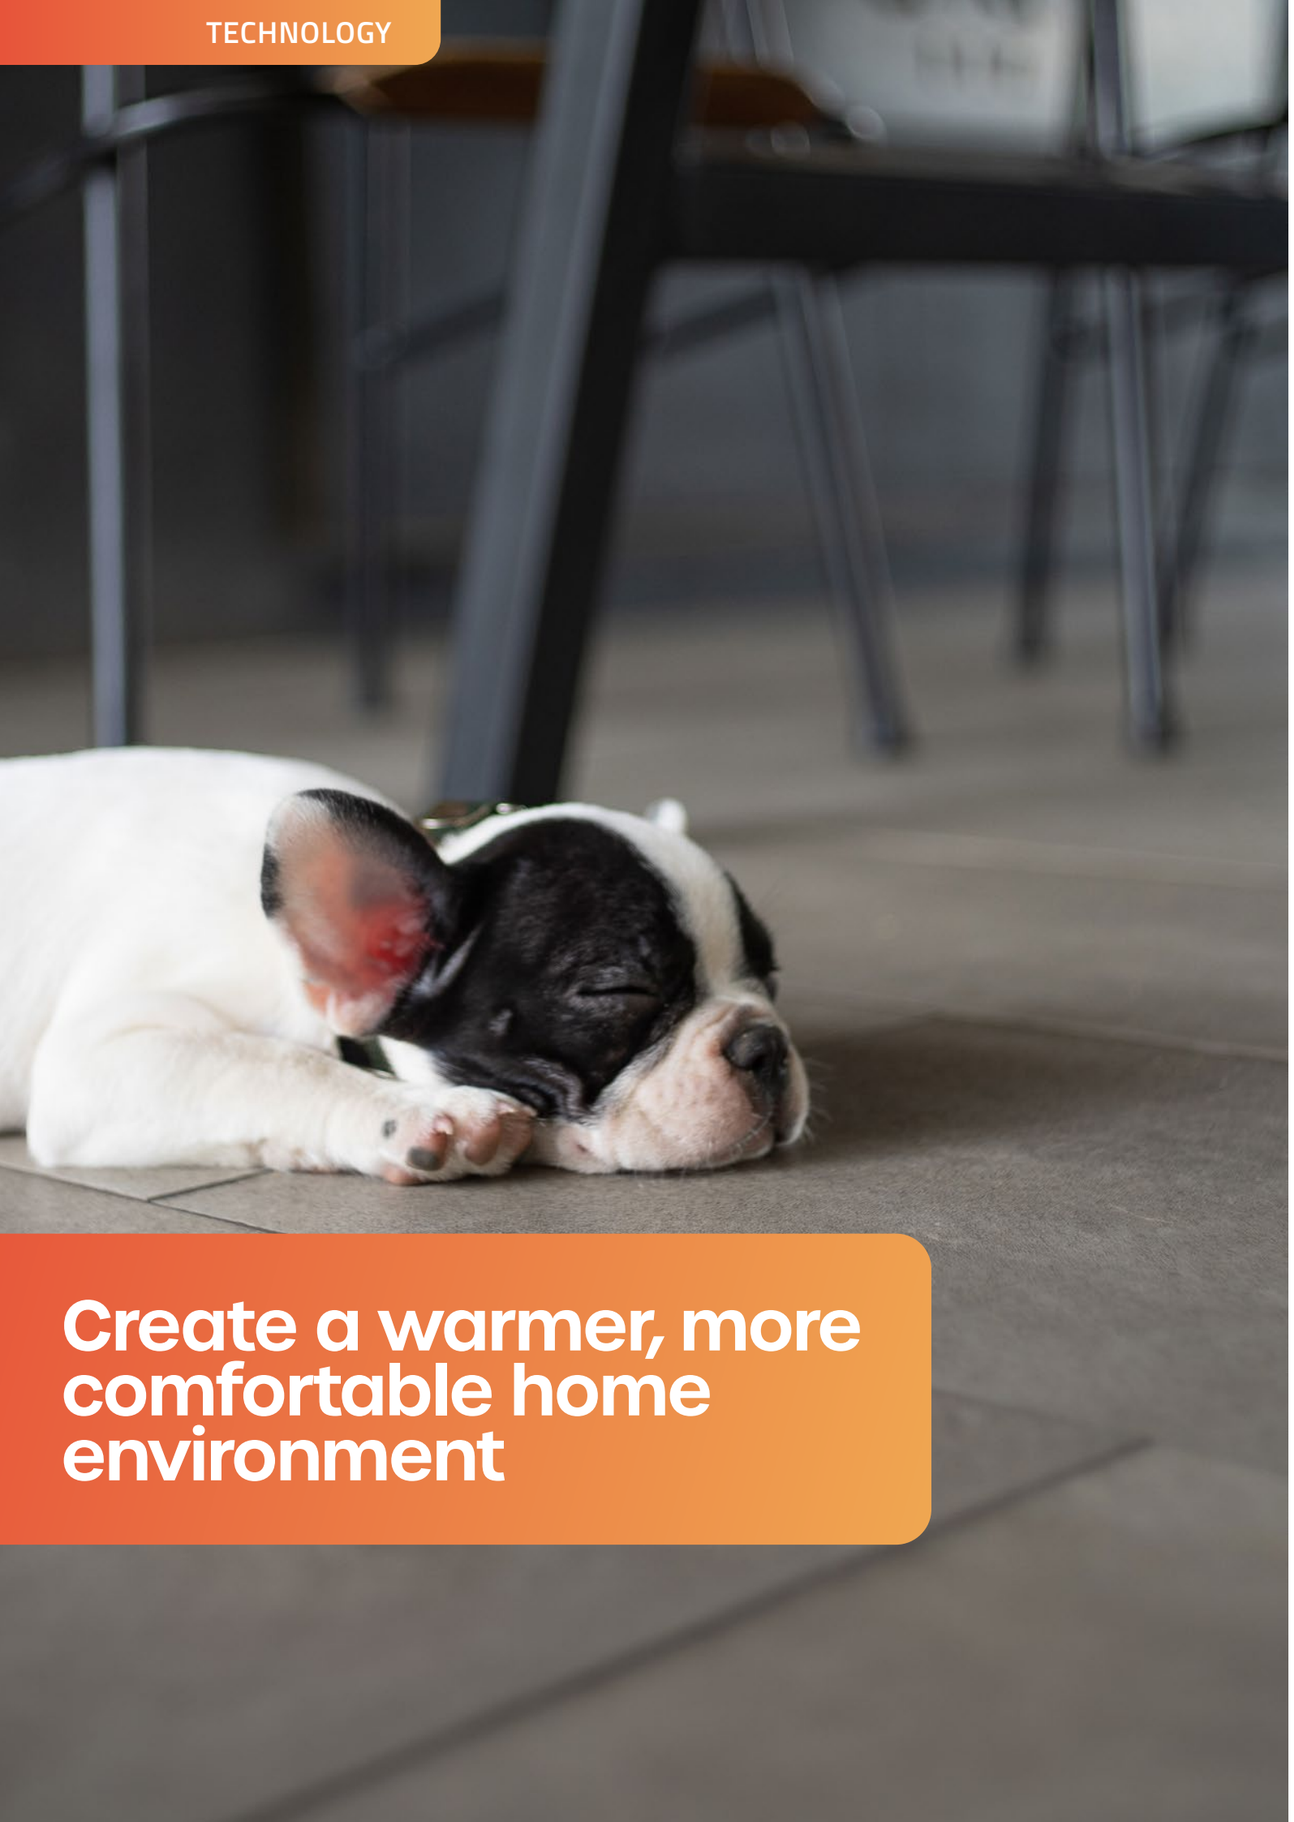

Run your underfloor heating and towel rail independently from one elegant interface.

Advanced Scheduling

7-day, 5+2 or fully custom daily programs, with Auto, Manual and Holiday modes.

Smart Sensing

Air and Floor sensing for floors, plus support for both 12V and 230V towel rails.

Create a warmer, more comfortable home environment

Affordable luxurious warmth for your loved ones

Hotwire Floor Heating may well be the very ultimate in home heating.

Floor heating radiates warmth from the ground up, heating not just your feet but your entire home. Hotwire is luxury you can afford. An average bathroom system is yours for approximately $800 RRP and a living room for only $2500 RRP*. As the heat is evenly spread throughout every room, it's just like standing outside in the first few days of Spring; beautifully warm and thoroughly luxurious.

*Based on a 4m^2 bathroom and 40m^2 living room. (Excluding installation)

Hotwire
warm your soul

Heating for a room, an open living space, or an entire house

Under Tile Heating

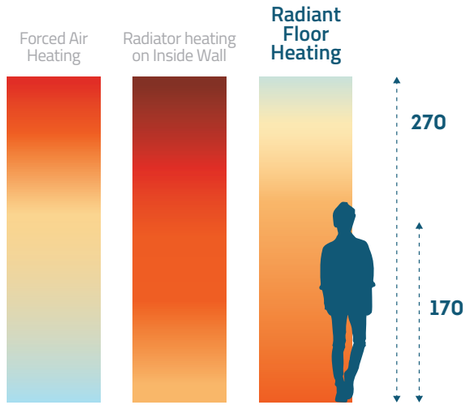

Under Tile Heating is ideal for the Australian climate. The 4mm heating element is installed directly over the subfloor, with flooring laid on top, warming your home in just 30–60 minutes.* The programmable touchscreen thermostat lets you schedule heating around your routine, so your home is warm when you wake up or arrive home.

Perfect for renovations, installation only requires replacing the floor surface. Suitable for areas from 1m² to large living spaces, with running costs from as low as 2c per m² per hour.

Hotwire is also ideal for bathrooms, heating and drying the floor to help reduce mould and cleaning.

*Heat-up times may vary depending on insulation and environmental factors.

Temperature Profiles for Various Methods of Heating

FLOOR SOLUTIONS

Other styles of Floor Heating from Hotwire

In Screed Heating

In Screed Heating is ideal if you are installing a sand and cement screed over a floor surface or planning a polished concrete floor. Whether you are building a new bathroom or an extended living area In Screed Heating is a perfect solution.

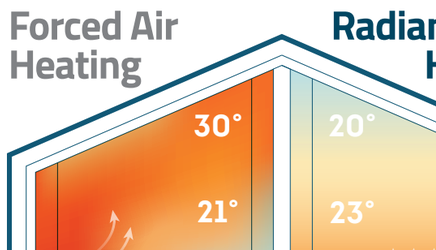

The element sits approximately 30mm deep in the screed and spreads an even warmth throughout the entire room. It does take a little longer to heat than Under Tile Heating (up to 2 hours) but may be the ideal solution for your project.

Heating Mat

Heating Mats are available in Under Tile Heating and In Screed Heating.

Hotwire Heating mats have the added bonus of the heating element being already fixed to a self adhesive fibreglass mesh. This makes installation a breeze as you simply roll out the system across your floor.

As with all Hotwire products the fully programmable thermostat is standard. You just need to choose which colour you want!

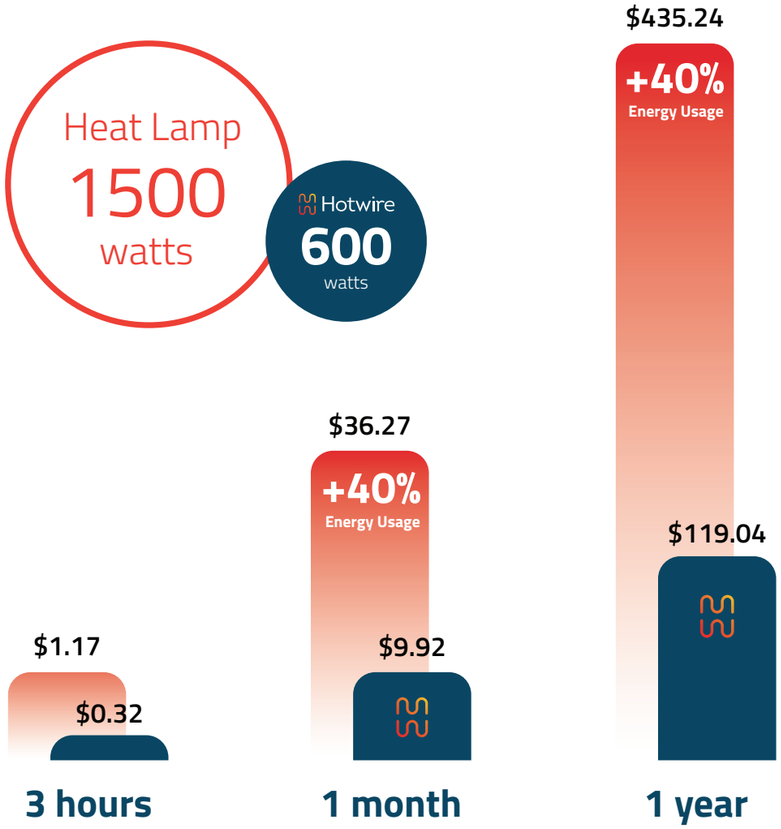

More efficient heating for your home

Running costs of Hotwire vs Heat Lamp

*The comparisons are based on a 4 bulb Heat Lamp unit at 375 watts per bulb. Hotwire costs based on a 600 watt element heating at full capacity for I hour and then cycling at 50% capacity for the next 2 hours. Running cost of $0.26 per/unit is an estimate only and will vary due to site conditions.

Get the clean, hygienic flooring you've always wanted without sacrificing warmth

The recommended floor coverage shown for each heating element is intended as a guide only. Every effort has been made to ensure these specifications are accurate; however, actual coverage may vary depending on cable spacing, room layout, obstructions, and other site-specific conditions. We recommend confirming the final heating layout with your installer before ordering.

BATHROOM

Nothing beats that feeling of warmth

A premium bathroom experience starts with everyday comfort

Imagine stepping out of your shower on a cold winter's morning and being greeted by a toasty warm towel to wrap yourself in.

A beautiful touch of luxury to wipe away those winter chills, at a price you can afford. Heated towel rails not only keep your towels warm and dry, but also add comfort, style, and practicality to your everyday routine.

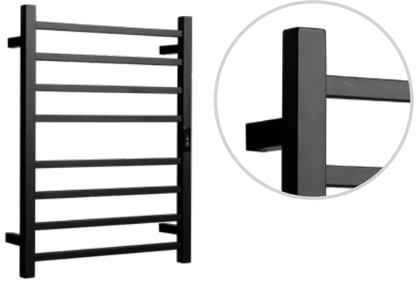

Heated towel rails to suit any bathroom

FLAT SQ8 / FLAT SQ10

Flat Square

BUILT IN TIMER

The flat square towel rail sets the standard in towel rail design. It features elegant square vertical rails and rectangular horizontal bars. It creates an excellent feature and adds luxury to your bathroom.

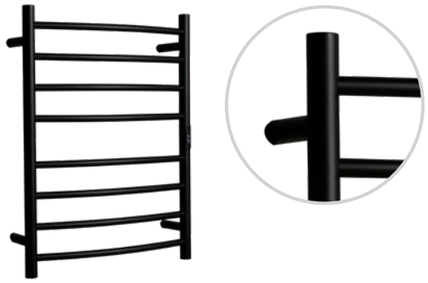

CURVE R8 / CURVE R10

Curved Round

BUILT IN TIMER

The curved round towel rail is a classic and enduring popular design. Featuring round vertical rails and curved horizontal bars and adds extra elegance to your bathroom.

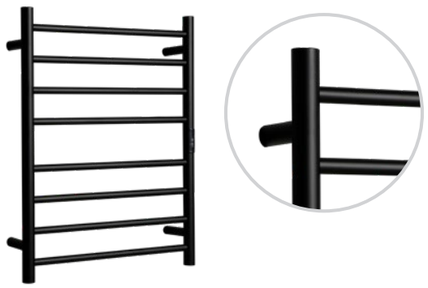

FLAT R8 / FLAT R10

Flat Round

BUILT IN TIMER

The flat towel rail is perfect in its simplicity. Another classic featuring round vertical rails and flat round horizontal bars.

FS7

Free Standing

The free standing towel rail has round vertical and horizontal bars and is ideal if you don't have the wall space for a standard rail.

V2

Vertical 2

The vertical rail solves space problems in both new and old bathrooms. Ideal where you have limited wall space. The V2 can accommodate up to 4 towels.

Actual colour may vary from printed image.

The Block winners Mitch and Mark love their Hotwire.

"For us, great design isn't only about how a room looks - it's about how it makes you feel. Hotwire floor heating is one of those luxuries that completely changes a room. The mat system was incredibly quick and straightforward to install, and once you've stepped onto warm floors on a cold day, honestly, there's no going back. We loved it. Get yourself Hotwire!"
